People's Pops: 55 Recipes For Ice Pops, Shave Ice, And Boozy Pops From Brooklyn's Coolest Pop Shop

Synopsis

A flavor-packed collection of 65 recipes from the trio behind the *People's Pops*. In 2008, three old friends had a hunch that the world deserved a better ice pop. Every summer since, New York City has been taken by storm with out-of-the-box flavors like Raspberries & Basil, Peach & Bourbon, and Cantaloupe & Tarragon from *People's Pops*. Now, the People behind the phenomenon share their DIY ethos in a breezy cookbook that teaches how to pair ingredients, balance sweetness, and explore fruits (and vegetables and herbs!)-in simple recipes that work with standard ice pop molds or improvised ones. With a chapter devoted to shave ice plus recipes for grownup boozy pops sprinkled throughout, *People's Pops* proves itself top of the pops.

"All you need is an ice-pop mold and sticks, a food processor and some simple syrup, and your summer will thank you."

We LOVE this book, and are so excited that summer's coming and we get to use it again! The pops

are unbelievably good, especially apricot and salted caramel....out of this world! We make a lot ahead of time for parties and all the flavor options are a huge hit. The only thing we've had to tweak are some of the pops that have herbal infusions...we're learning that you have to seep the herbs in the sugar water a little longer than stated to be able to taste its presence in the pop. Otherwise, these are amazing!!

OMG We love these pop sicles. My 2 year old granddaughter can't get enough! She loves the strawberry cream ones. My personal favorite is Raspberry Basil Pops. The Pumpkin Pie with whipped cream taste exactly like the real thing! Everyone is always surprised that they taste like pie! They're very easy to make...I have bought on lots of styles of pop sicle molds so that we can tell the booze pops from the kiddie ones. Very well written and YUMMY!!!!

I just wanted simple recipes with a few unusual mixed in. This is the opposite and I'm far too lazy for this. It actually was supposed to be a present and I was going to get some ideas from it but it's going back. The combinations might be great for someone who cooks more and likes odd combinations. And I was hoping for healthier recipes. This just wasn't what I was looking for but it might be great for someone else. I can make really good homemade popsicles by adding a little honey. Like making a frozen smoothie. I'd rather add a few dark chocolate chip pieces to my frozen smoothie than refined sugar. Then I have a sweet treat for the summer without all the calories and fat! And I'm getting vitamins and some of my fruits in for the day.

This is a great book to use as a starting point in finding out what flavor profiles you're into. So far, we've made the strawberry and cream (OMG good), plum, yogurt, and tarragon, cantaloupe and tarragon, and roasted yellow peach. Looking forward to trying out the other recipes to see how they turn out. Thanks Nathalie and David, and Joel for creating this outstanding book! :)

I love this book, it is a must have. Recipes are so simple and easy to do. Love how they walk you through everything. I've been making popsicles and taking them to work and they are a big hit! Highly recommend this book as your go to for popsicles!

The recipes are great for summers at 121 degrees here in Arizona. We keep at least 1 or 2 recipes in our freezer at all times!

I just love this book. The intro to each recipe is like a chat with a friend. Beautifully designed, and the recipes are straight forward and so creative.

This book is great! I am so glad they have a recipe book so that I can attempt to recreate these amazing Popsicles! I had these when I was visiting New York and took a stroll through Chelsea's Market. They were by far the best popsicles I ever had and I was so sad I was only able to have one before leaving. I usually don't eat sweets anymore because the high sugar content and additives mess with my stomach, but this didn't bother me at all and that alone made me want to try it again. I'm really excited to try these out and I hope they come out just as good as the original or at least good :D
