For The Love Of God, Make Her Stop!!, February 8, 2004 Reviewer: A reader from USAI can't get past the first couple chapters. The book is scattered, hard to read and basically unenjoyable. A complete waste of time and money. Plus the foundation of this pseudo-doctor's feeding regime is the Pottenger Cat Study. This is an antiquated study from the 1930's that had no controls. Reading it, any nutritionist worth their salt would know the diet Pottenger fed lacked taurine which caused his problems. Why doesn't Dr. Yarnall? Now, we have that and much more in today's food. How else can generations of cats reproducing year after year and living long healthy lives on commercial diets. This book is just one big long scare tactic to sell her product. But, it has one practical use. It's a great sleep aid.

A total spiritual, physical, alternative direction for your dog! Even has some astrology for your pet!

You'll LOVE this book -- and recommend it to friends.
