Living The Spectrum

Synopsis

The new author, Rachel Rain, offers a brutally honest retelling of personal experiences in their journey to determine who they are. Oppression from family, religion, gender roles, relationships, school, and even sexual assault are described within this short reading. Each chapter within Rain's work contains insight into stories that may trigger strong reactions. It's encouraged that readers prepare to be disgusted, shocked, and understood. The stories described are likely relatable to many readers, yet what is described are some of the darkest moments of Rain's personal life. Strength hides even amongst the darkest shadows.

Customer Reviews

Real, raw, and worth the read. This narrative provides a critical perspective. Sexual assault is real and prevalent and often ignored in circumstances like these. I want to thank Rachel for sharing her story! In doing so she's creating a source for others to explore and gain some understanding on these issues
