Customer Reviews

Really weird, but good book. It will take you through several sexual episodes of Bob and Suzie and mat some times other participant of some form. The sexual description are so good. So if your into experiencing new sex games and positions - this is a must read.

Getting in the last move is all she needs to be ful"filled"! There's more than one way to shut her up.

First off, I love that this is offered in a bundle form. It was really nice to be able to get the bundle, download it, and completely indulge all at once in these stories. Tara Crescent's writing flows smoothly and even though this bundle is a collection of episodes, it reads like a complete novel. The transitions between stories are really smooth and interesting. The main characters interact really well and I love the concept of alien sex adventures. The thing that makes this bundle stand out compared to other alien stories is that there isn't just *one* alien. There are many, and they're all into something different, something kinky, something fun. Definitely a fun read to try out some Friday night. Fill up your bubble bath, grab a glass of wine, and enjoy!

3.5 stars for this complete 5 part series. It was a lot of fun to read. There was plenty of sex, some interesting creatures, and titillating threesomes, all over the span of 1 year in Space. Suzie seemed to slip into her role as submissive quite naturally. Bob (the two-dick Alien) was sombre and moody, with a sense of humour. As this is a short story, I won't go into great detail. Some highlights should suffice. Imagine travelling around with a Dominant two-dick Alien to different worlds, in search of sexual pleasures. You would have threesomes with beings with tails, bound and whipped by tentacles, and some other galactical adventures. There was a lot of sex.... I mean a lot. Great fun if you're looking for straight erotica. This is my first Alien erotica and while fun, it didn't hit the spot for me. I think I would have enjoyed more character development with Bob. Sometimes it was like he wasn't even there, in spite of Suzie constantly thinking of him. The other characters seemed to get a bit more attention than he did, which was unfortunate for him. I have a feeling this just isn't my genre, but that is on me. The author wrote a consistent story, in a fun and witty way. Tara showed me a new intergalactic world, rich and diverse, with interesting beings, whom I could imagine meeting

I'd rate this at 3.5 stars! thanks to the author for allowing me to read and review! Hmmm what to say.. this book was funny in some parts.. well a lot of parts. It definitely feed my need for the fantasy/sci fi/monster sexathon. Grins All five volumes in each volume short and easy to read, rounding out the

book at 160 pgs. In the beginning you go on a adventure with a woman that is abducted by a sexy alien. The kidnapping started out as part of a devious plan from her ex. Things change and she will ride the stars and enjoy the different pleasures of a few different worlds. The alien she named Bob, is commanding and dominant. He shows her that right from the beginning. I liked how the alien only pushed his lil human as much as her own thoughts wanted it. Each situation she experienced was from her own mind. Each volume is just another part of Suzies story, she gets closer to her alien, she meets and experiences a few of her sexual fantasies. It touched on medical play, rope, BDSM. Girl on girl. Not sure what it didn't touch on, (smiles). The story give a whole new meaning. "Monsters inside me" I had fun with this and glad I had the opportunity to read it. Enjoy

Very interesting story line. In book 1: The Alien, the Doctor and the Virgin Suzie finds her boyfriend having sex with her roommate so she breaks up with him and moved out, she also winds up losing her job. She's now living in a tent and gets abducted by an alien. To say things aren't going her way are putting it mildly. In book 2: The Alien Trains the Virgin Bob begins his training of Suzie to make her more accommodating to his sexual needs. In book 3: The Alien, the Virgin and the Warrior Queen Bob and Suzie go to Erdem to meet with the Warrior Queen about taking Larry for a year and teaching him a lesson for his abduction of Suzie and taking Bob's Crystal. In book 4: Tentacle Monsters and the Virgin Bob and Suzie complete their time with the Warrior Queen and move on to another planet where Suzie gets to live out another one of her sexual fantasies. In book 5: The Virgin Returns Home. Suzie spends time with Bob and George before she goes home after a year of traveling the galaxy. Great ending to the series. I really enjoyed this series of books. Great box set for a hot intergalactic erotic read.

This is one of those books that shouldn't be taken too seriously, and if you aren't easily offended and like your kink with a side of snark, this should be right up your alley. Virginal Suzie has been dating a jerk of doctor named Larry who who has somehow come into possession of an artifact allowing him to control a telepathic, doubly-endowed alien named Bob. Larry attempts to force himself on Suzie, but things rapidly go haywire, and Suzie is soon gallivanting around the galaxy enjoying one twisted sexual experience after another with Bob as her mentor. There's basically just enough story here to hold the sex scenes together, but it's a good, creative, entertaining story that kept me turning the pages. Larry gets his comeuppance, Suzie gets to fulfill all her twisted fantasies, and Bob gets to preserve his lifeforce (trust me on that last one; you'll understand when you read it).

Really enjoyed the humor and fantasies! Hoping there are more adventures in the making! Read the series cover to cover.
