Customer Reviews

McGraw-Hill Education Editors represent the highest standards in test preparation.

I purchased this book to help my students. It does contain many questions that resemble the current GED social studies test. However, I would have liked to see more of these types of questions.

Ok good practice you really can learn something mostly a lot of graphs more graphs than anything doesn't really show too much of how to answer the problems

This was purchased as a gift, and the person who received it said that it was helpful and easy to use.

Nice book shipped fast my daughter plans to use them to get her ged easily understood

Good book

Thanks
