Bottom Line's Healing Remedies

This one is better than most I've ordered. It includes some relevant folk healing that a lot of them don't, that is, something that'll do you some good. Many of the others I've ordered tell you "doctor" stuff which includes the medical profession "idea" (huh!) of treating, not curing. That word is not in their vocabulary. Pay attention, though, some of the little ones will slide right by you if you're not careful.

Easy to read. Helpful. A good addition to our home library. Found it right here on . Maybe I'll ask them to sell-it-again if I decide to break down my library. For now it a nice little reference.

I ordered this book for my mom and she loves it. it has very interesting home remedies that are very useful so I guess its a book to have in a home. It was a used booked but it was in great condition (like new) as advertised by the vendor so I would higly recommend this book.

very clean

I am still reading and still make reference when I need to , will be my collections to read over and

over..

I would absolutely recommend this product, Bottom Line's Healing Remedies. In fact I did and a friend purchased the same item and was completely satisfied as well.

My book was delivered on time and was in great condition. I would do business with this seller again

This is in my library of reference books to be used when you have that niggling problem that doesn't take you to the doctor but you know something's isn't right.
