## Customer Reviews

Detailed map with scenic routes highlighted. This is not only a useful document for planning a driving holiday in Andalusia, but a complement to GPS systems to be used in an auto journey.

I love michelin map products, and it helped me greatly to plan my trip. only reason not 5 star is I paid a bit more for the "multilingual" version, but is is exactly the same as the standard one with a different stiff cover.

Good detail, but not enough for the cities. But got us around just fine.

This was an excellent map for planning our car trip in Andalucia last week. Of course, once on the road we used Google Maps for navigation even though there were a few places in the mountains where GPS was lost.

It indicated English verses being in Spanish. Map was okay but I was disappointed. Also a very large map thus on windy

large, foldable, lots of detail, what more could you want? I got this to plan a trip and to decide on distances between things I want to see, and evaluate the coastline.

Pretty useful for getting from one town to another. For finding specific addresses within a city or town, of course, it is not sufficiently detailed. Since our GPS proved unreliable, though, we were glad we had this traditional map.

This map included useful road information, including road signs. It unfolded nicely, and the hard backing made it easy to handle for the navigator (me!). It had all of the roads, including lots of secondary roads that we traveled on.
