Shipping Weight: 11.2 ounces

Average Customer Review: 5.0 out of 5 stars 3 customer reviews

Best Sellers Rank: #777,508 in Books (See Top 100 in Books) #360 in [Books > Crafts, Hobbies & Home > Crafts & Hobbies > Toys & Models > Models](#) #80153 in [Books > Arts & Photography](#)

Customer Reviews

Highly rated to this day! Best book that provides graduated lessons on the art of iron gate work.
Gives list of tools needed.

Second of the 3 part series on blacksmithing published by the COSIRA. This is an instruction book for a blacksmith. Contents: Scrolls - ribbon, fishtail, solid snub end, halfpenny, bolt end, bow-over leaf, making a scroll tool. Twists, Water leaf, Parts of a gate. Excellent for the CBA or Western States Blacksmithing level 2 and 3 projects. This book, like all in the series, is available for free download, but the download sites change and it has to be downloaded in 6 parts.

As you learn the blacksmith craft, this reference expands the knowledge necessary to improve your skills and progress to the next level.

This book gives the only practical how-to on traditional English gate building. It has very detailed information on the production of hand-wrought scroll work, including how to make the tools. I build my own scroll-bending machines, and this book still taught me a lot.
