This is a 10-pack of the popular "Creation and Evolution" pamphlet. Pastors and teachers will enjoy the clear layout showing various sciences (biochemistry, astrophysics, genetics, etc.) and how evolution fails to explain what is seen in nature. Contains quotes from respected scientists worldwide who express doubt about the "Darwinian evolution" that is taught as fact in schools today. For example, evolutionary theory says we ought to be able to expect human life to form from amino acids if given enough time, say 5 billion years. But modern mathematicians say this is highly unlikely, even given 100 billion years, far longer than evolutionist believe the Earth has been in existence. Full-color photographs throughout this beautiful and useful chart. Size: 5.5" x 8.5" and unfolds 12 panels to 33" long.
