Customer Reviews

The simple text with colorful graphics describes the importance of light in our everyday day. . . . The book is full of explanations for simple events that happen with light. --Children's Literature

PWB Biography: Natalie M. Rosinsky is the award-winning author of more than 90 publications. She writes about history, social studies, economics, popular culture, and science. Natalie earned graduate degrees from the University of Wisconsin-Madison and has been a high school teacher and college professor as well as a corporate trainer. CPB Biography: Natalie M. Rosinsky is the award-winning author of more than 90 publications, including 10 books about Native American tribes. She writes about science, history, economics, social studies, and popular culture. One of her two cats usually sits near her computer as she works in Mankato, Minnesota. Natalie earned graduate degrees from the University of Wisconsin and has been a high school teacher and college professor as well as a corporate trainer.

I was hesitant to buy this book without getting to look inside first, but it turned out to be an excellent purchase. I read it to my 3- and 4-year-old daughters, stopping to do the activities suggested, such as making shadow puppets and looking at our reflections in spoons. There was no need for any preparation. The book is written in a clear, simple style, and I appreciated that it didn't have a textbook tone.

Great book for explaining light and shadows to my first graders!

This book came recommended by my daughters Kiwi Crate, when they did the unit on Light and Shadows. This was a great explanation of light and shadows. Truly a worthwhile addition to our homeschool library!

Great book to use on light reflection.

Great

The book is great but a little much for my four year old Great Grandson. But my eight year old Great Grand daughter loved it.

I like reading this book.

I am glad to get this book. Using literature to teach Science concepts really helps my students understand the concepts.
