Customer Reviews

Really great resource for premed students. It's is very helpful and tells you the inside of the medical admission process. This told me things that I did not find in years of research about the medical life and admission process. I have many people in my family that are doctors but this books really helped me a lot too. I highly recommend it especially if you are first generation med student in your family.

Informative, helpful and good cost for what information it gives you. Something I would recommend for anyone who is interested and heading towards a career as a medical professional

loved this guide!

Great for helping me in figuring out my med school requirements and steps!

SDN is a great resource for the future doctor, and this admission guide is exactly what you'd expect from them. Very informative! Helpful. Thanks!

Helpful but quick read

I am about to start undergraduate school, but I have always wanted to become a doctor. After reading this book I feel totally prepared for the journey ahead. This book will help you no matter if you are in undergraduate or medical school or post medical school.

SDN admissions guide helped me get into my top choice medical school. It is a great book and is really essential in the admissions process. I would recommend it to anyone applying to medical school.
