Customer Reviews

This very brief quiz is basically an ad for his online poker coaching but it does have some value.

Might be worth the price.

10 Flop Decisions is absolutely worth the cost. Yes, it's short but the basic thought process

Jonathan provides is worth 200 times more. I'm an advanced amateur who loves the game but doesn't have time to learn or practice on websites. I appreciate that the book gives me the opportunity to consider and learn poker strategy like on a website but in a location where I do most of my reading.

This is an interesting book... Booklet actually... Very small in size, tiny price (a bit more than ONE DOLLAR!) it kind of feels like material that couldn't fit in any other JL project, so it is released here... Still some good thoughts about flop decisions. Of course this isn't an actual, normal sized "book", but for the price it's being sold and the content, it is an easy 5 star...

I like this book but I really like the how smart you are link at the beginning of the book. That really showed how terrible I am at poker. Wish it had a little more detail against different players rather than the minimum

Easily digested information on starting hand logic in Texas hold'em play. A good basic reminder of how to play before and during the flop.

Good basic knowledge, worth reviewing from time to time as your experience and ability to read people grows

I think I paid \$1 for it and it was a very clear concise look at a number of common hands and I found it useful and easy to digest.

Hard to beat for 99c. Helpful advice for some common situations from a proven pro player. Well explained and setup.
