Adoption Healing is undoubtedly the best and most informative book I've ever read pertaining to adoption. This book addresses what "really" happened to exiled mothers, during a time in which being an unwed mother was socially unacceptable, and there was no one she could turn to for help. Most of these mothers were sent to live in unwed mother's homes, especially if their parents were unwilling to help them. I am one of those mothers. The staff at these homes were more than willing to inflict additional punishment. Mothers-to-be were coerced into signing relinquishment papers soon after their child's birth, with no lawyer present, and a bureaucracy that condoned this horrendous practice. This is something no one could begin to imagine happening in today's social climate. If it did, it would make front page news. But unwed mothers were treated as if they were less than human during the Baby Scoop Era, a time frame from approximately 1945 to 1973, prior to Roe vs. Wade. This book is a voice for all *natural* mothers who lost a child to adoption, and a

voice as well for the innocent child who lost his or her mother, so soon after birth. Finally, there is this book to dispel the myths that shroud adoption. The only people who benefit from coerced adoption are the adoptive parents...period! This book dispels the myths that shroud adoption, and can help mothers who lost a child to adoption begin a journey of healing. I highly recommend everyone read this book -- every natural mother who is hurting, every adoptee, every adoptive parent, and prospective adopters. It is VITAL!

This book is every in depth and explores the entire range of emotions that a mother experiences from the time on relinquishment to the years after including reunion issues. It is very important that a woman who has suffered with coerced relinquishment find literature like this and absorb it enough to really heal and live the best life they can live with or without their adoptee. This book will give you the necessary information to start that process.

The book is well written and truly describes the great loss and circumstances surrounding adoption, while providing a pathway to understanding and healing.

I thought this book was wonderful. It definitely helped me to realize that I wasn't alone in my feelings and fears, decades after losing a baby to adoption. I feel it has helped me to face the truths of just how things happened and helped me to realize that it was not only not my decision but it was not my fault. I was given no choice and this book helped me to realize that. It has been very therapeutic in helping me deal with my loss and to understand my behaviors over the years.

This is a MUST READ FOR BIRTHMOTHERS who surrendered a child to adoption, also for Adoptive Parents, and the Adoptee...this book helps them ALL to understand each other so much better and thus the Adoption Healing process can begin. It will be a tough process but so needful. Joe Soll has another book - 'Adoption Healing for Adoptees' - MUST READ FOR ALL ADOPTEES - BirthMothers and Adoptive Parents. These two books are excellant.

very good book. all about adoptions from both sides. from mothers to the kids. this way by far my favorite of books on this subject.

This book brought to life many old and buried emotions. It contains some very useful advice about the emotional healing process. I found it to be very well written and helpful.

I am recently in reunion with a son I lost to adoption 23 years ago. I was in a deep denial for all these years, only coming to reality when he contacted me. I am thrilled to know him, and feel his love, but all of this has been overwhelming. This book has and is helping me understand my feelings, and reassuring me that I am not the only woman to ever have these feelings.
