THOMAS A. MCLAUGHLIN is the founder of McLaughlin & Associates, a nonprofit consulting firm. He is a contributing editor for the NonProfit Times, and he taught financial management and strategic management to mission-based MBA and international students at Boston University and Brandeis University for 28 years.

Does not give a real basic budget form for small nonprofits who have boards that do not understand accounting terms. Is too complicated for many nonprofits. Should have had real basic knowledge and examples for non accountants and new nonprofit organizations. NOT at all street-smart. Expected better from McLaughlin.

Great everyday financial book for those who need to know the financial basics and how to keep an organization sound.

The book outlines and communicates in a way an 8th grader could read. Well written

needed this for a class - good book

Prior editions excellent...4th edition in need of editing, e.g. missing exhibit in chapter 5; some ratio calculations in chapter 6 could not be reproduced and appeared to be incorrectly stated. Revisions needed to newly released 4th edition need to be made by publisher Wiley.

This new 4th edition is atrocious! The author ought to be ashamed of himself. Poorly written, poorly edited and rife with errors. Shame. Shame. An "F" for you, professor!
