Synopsis

FBI behavioral psychologist Daniel Clark has been made famous by his arguments that religion is one of society's greatest antagonists. What Daniel doesn't know is that his obsessive pursuit of a serial killer known only as "Eve" will end in his own death at Eve's hand. Twenty minutes later Daniel is resuscitated, only to be haunted by those twenty missing minutes of life. It soon becomes painfully clear that the only way to stop Eve is to recover those missing minutes by dying . . . again. What isn't nearly as clear is just how many times he will have to die to discover the truth, not only about Eve, but about himself. Daniel will have to face haunting realities about demon possession in the modern world-and reevaluate his prejudice against religion-to stop Eve.

Customer Reviews

"In his hunt for the serial killer known as Eve, forensic psychologist Daniel Childs suffers a gunshot wound resulting in his death and resuscitation. While dead, he discovers within his mind the key to the mystery, if only he can find the lock. Tim Gregory narrates with impeccable timing, never giving away more than the restrained text offers. His clear, effortless-sounding narration is both involved with the story, and detached from it. A series of chapters inserted throughout the book details the killer's childhood and the events that lead to his current crimes. Gregory delivers these with a slightly different pace and tone—almost sounding like another reader. The surprise ending works, both in terms of content and performance, leaving the listener waiting for more from this pair." — R.L.L. 2009 Audies Finalist - © AudioFile Portland, Maine

Ted Dekker is one of my favorite authors and Adam is one of many of his books that I am glad to add to my collection! Dark, and intense, this book will keep you at the edge of your seat until the end! And for any lovers of thriller or Ted Dekker books, I recommend his novel THR3E! A masterpiece among novelsBook arrived with very minor wear, almost perfect!

While reading this review, consider and keep in mind that:A. I am relatively new to Dekker's workB. I rarely read novels, or have read very few novels (some, just few)C. I'd give this 4.5 or 4&1/2 stars if would permit me.To briefly summarize my experience with Dekker. My initial exposure with him was reading his entire circle series (minus Green) via the graphic novel version. I was blown out of the water with them, it was a intense mind-trip for me. I then read Immanuel's Veins, and now Adam. So this is my second Dekker novel to date to read.I must say in summary, this is a great read. It's engaging and draws you in to the very very end you feel the entire book is one gigantic crescendo. Even reading the last chapters, when I saw how few pages of the book were left I was wondering how Dekker was going to pull off resolving and ending this immense amount of tension he had managed to build for 300 pages+I am sure there are plenty of reviews giving a great synopsis of story, plot and characters. So I won't beat a dead horse and repeat that here (plus I don't want to be responsible for any spoilers).I will tell a bit about my experience with the book. I will say that while I had some sense of what direction Dekker was headed with the story, there was always enough "blanks" to fill in that kept me eagerly reading on wanting to find out more. It was like I could anticipate some things, but other things I really had no clue how they'd play out. I will say this, I was immensely surprised at the end at at least one point. So much so I sat up out of my bed talking aloud to myself saying "what!? I don't believe this!" In genuine shock and utter amazement. I must say I never imagined a written story could engage me and throw me for such a emotional loop! I am a young male (in my late 20's) and this was quite a feat. Congratulations Mr. Dekker. You are a fine craftsman at your art.I will say this also about the story. I had no idea, no clue, what the story in the end was really about. I thought it was about a serial killer. I never imagined it could be about love. Not only love. But the profound depth of authentic love that comes shining through demonstrated in the story. And it was absolutely BEAUTIFUL. Not gonna lie, it made me cry! (mind you, I'm a young

dude in his late 20's). Yes, I cried at the end. And I was deeply moved and touched with a beautiful illustration of love and its power. It was worth the read just for the profound moment of epiphany I had at the end. Readers you will enjoy the ride and the conclusion of the ride if you decide to take this one up.-Carlos

This was a great read. Definately a page turner. I've just discovered Mr. Dekkers books and will be reading a lot more from him. I like his style and the twists he incorporates into his stories.

I loved the journey and the pace of this book. It was truly fascinating. The csi type tech and the psychology were spot on and enjoyable. The only reason I didn't give this book 5 stars was the ending. I found it a bit contrived and muddled. Plus I would have liked to have known how the fbi agent dealt with his new found knowledge of a spiritual afterlife. I did really enjoy the science behind this book and the twist at the end was great. I didn't see it coming. All in all a great read.

I read this on recommendation from a friend and it was amazing! Literally one of the most intense books I've ever read. I was on the edge of my seat the whole time. I'm a huge reader and fairly widely read, so this review is pretty unusual. I would say that for anyone who does not like thriller type stories, this may be a little too intense. However, I loved it and will definitely read again. Probably the most intense of the Dekker books, but one of his best! The Christian worldview added to the appeal of the book for me.

Absolutely fantastic book!!!! Ted Dekker is one of my favorite authors and this book is one of his best. Very hard to put down!!! I loved the discussion he did at the end.

This book is a wake up call for Christians. Using fiction, Ted has masterfully reminded us of this battle we wage, not in the physical, but in the spiritual. I would gladly recommend this book, especially to younger people who are simultaneously naive and ignorant on this issue of Christian spiritual warfare.

Ted Dekker has a way with his stories that brings the story of the gospel to life. In this story we see what happens when someone completely denies Jesus and is confronted with pure evil. As Ted Dekker states at his ending monologue, most people do not deal with evil in this form but the silent attacks can even be worse because we don't attribute many of our problems with evil forces. Our

culture in America has led us to believe that evil spirits do not exist and it is all supernatural. How can you fight an enemy that you don't believe is real? The answer.....you can't. This book is a fast read which ends with the extreme example of this. Great read.
