Summary: The Life-Changing Magic Of Tidying Up By Marie Kondo

Synopsis

Book Summary: The Life-Changing Magic of Tidying Up: The Japanese Art of Decluttering and Organizing by Marie Kondo It takes the average person 38.5 minutes to read 5000 words. For the price of a coffee and a time investment of roughly 2% of your day, I believe the wisdom in this book to be well worth its value. Here's my sales pitch: The writing will not be quite up to the same standard and the formatting is also not done by a professional. If you need a story behind each point to reinforce it, then please, go and buy the original. However, if like me you aren't a fan of the 'fluff' that comes along with most books and would much rather skip to the nuggets of wisdom and actionable content in a very easily absorbed, readable way including key takeaways - then I believe this is the book for you. Save yourself time and money. I am only releasing summaries of the books that have made a true positive impact in my life. If you decide to purchase, I truly hope you enjoy and benefit from it. Customer Reviews

Wow, extremely concise and true to the word "summary." Received it today, read it today in a few minutes...done There are 33 ish pages of double spaced, readable (meaning not tiny) font that take less than a minute to read each page (longer only if you didn't grasp the concept at first or wanted to burn into memory each page by reading more deliberately or slowly). I thought this was a well organized summary with "Key Takeaways" notes after each section. For me, this was perfect to just get the gist of the concepts and get going on it. I felt that there were a few over simplifications. But if I want more detail, I can just go get the actual book (which isn't that long anyway) and read it myself. Overall, I like this summary concept and the no fluff style from the author for this kind of self help book.

Excellent book that explains how and why getting rid of excess and clutter will clear and clean your space and yourself.

I enjoyed reading the short version of the book. I had heard that the original was repetitive, but I wanted to get to the details right away. Maybe I'll buy it later.

This book is an Inexpensive way to find out if you really want to buy the Marie Kondo book.

I liked the book because it coverwd tbe material efficiently and was presented in a way I could use immediately.

Fine product. Prompt delivery

Concise summary. Used it as a primer before reading the full book it summarizes. Excellent resource for busy folks.

It's a review of the book not the actual book....
