Customer Reviews

I enjoyed the book overall. I didn't like the 'new age' tone to some of it. I believe in the healing powers of essential oils, but not in the astrology positions. There is a lot of useful charts with basics on what oils to use for what condition. Good info for those starting out.

Found good information but a little bit shallow than I expected.

If you seek knowledge on the liver inside and out - this is your book! I learned so much while reading this little gem, I could not wait to turn the page!!! Excellent Book Excellent Cleanse - Excellent Author!

The more you learn, the more you apply, the better you feel. A great source.

Elizabeth is one of the best in the field.

This book is a little too out of the scientific realm for me. I have a hard time with crystals and so on. She really didn't touch much on oils as I hoped she would.

I have found many useful things in this book. I have many essential oil books and I love Elizabeth Ashleys books and refer to them often. She has a lot of knowledge when it comes to essential oils
