100 Hikes In Washington's Alpine Lakes

Synopsis

It's hard to imagine a Northwest bookshelf without at least one title in the 100 Hikes series. These books have introduced two generations of hikers and backpackers to the best (and often least-crowded) hiking opportunities in the Northwest. The most popular volume in the series, 100 Hikes in Washington's Alpine Lakes has been completely updated and revised. This rewarding collection of day trips and overnight backpacks covers the area between Stevens and Snoqualmie passes from north to south, Mount Si and Mission Ridge from east to west, and the Alpine Lakes Wilderness Area. Hike descriptions include distance, elevation gain, estimated hiking times, and best time to go, plus trail maps and enticing photos

"Probably the most dog-eared and gorp-smeared guide in the knapsacks of Seattle-area hikers...If you're a hiker...you need it." -- Seattle Times

You can't go wrong with the 100 Hikes series (there are also 55 Hikes and 50 Hikes books as well). These books are Mountaineers Books usually written by Harvey Manning and/or Ira Spring. I have used the 50 Hikes in Mt Rainier National Park, 100 Hikes in the South Cascades and Olympics, as well as this book, 100 Hikes in the Alpine Lakes Wilderness quite a lot. They are all great. What are you waiting for? Get out and hike!

Everything was just as it was described. Thank you!

We are always looking for new trails in the Alpine Wilderness area. This book may be older but the info about trails, camps, mileage, etc. is better than some of the new books. The Alpine Wilderness is my favorite hiking area.

I thought a book published by "The Mountaineers would be more technical and have better maps.

Thanks, Vicky for continuing the tradition. Ira would be proud.

Very informative book about an area that I really want to visit!

good book.
