While still in his early thirties, just before the turn of the century Wayne Caparas emerged as one of the top pioneers of the modern fitness industry. Upon garnering numerous awards and published accolades, his chain of Charleston, SC health clubs gained acclaim among the most innovative fitness organizations in America. Also a publisher in the burgeoning genre of women’s fitness, Wayne co-developed the award-winning Vie Magazine and was instrumental in the conception and launch of Oxygen Magazine, serving as a contributing editor for its first three years on the newsstand. In addition to lecturing for the American Council on Exercise (ACE) and IHRSA, Wayne broke new ground as a research journalist for Oxygen and other publications. His most lasting impact on the fitness industry, however, likely came through his pioneering of obstacle course events for television, as his team gained high praise from ESPN for advancing the sport before any of the current broadcast competitions existed. In the late nineties, after being diagnosed with an often-debilitating thyroid disorder (Graves Disease), Wayne liquidated his fitness industry interests and turned his focus toward research and experimentation that sparked BioLogic Revelation. He

continues today as a writer, media artist, and volunteer to a large number of organizations including the Fellowship of Christian Athletes. Now well into his fifties, Wayne is stronger and healthier than ever. He currently lives in Franklin, Tennessee with his wife Stacey, their children, and their growing extended family.

Excellent read! It's a well written book that's easy to understand. I'm 74 years old and have never found an exercise program that I could follow so easily and enjoy doing in the comfort of my own home. I feel better and have started to lose inches. It's amazing that a 10 minute workout could be so effective. And as the research will prove, this is no mere fitness fad, but a real scientific breakthrough.

This book is a must read...for everyone, any age. The evidence Wayne provides is clear cut, well researched and unassailable. And there is a preponderance of evidence on how to properly exercise for the greatest health benefits. If you are interested in increasing muscle mass as well, Wayne shows you how to properly do so. There is hardly a more important book to read because everything starts with a good healthy body and how to do it right. The book also has an accompanying exercise app that is very easy to use, suggesting different exercises and tracking your workouts.

The BioLogic Method targets specific muscle groups with short intensified workouts that you rotate so your muscles can heal completely before working them again. This book is an eye opening read. The extensive research will hopefully open the eyes of the fitness industry. As a woman in the mid-life age group, it is definitely a program that will benefit me. While I love to workout with weights, I will be adding his routine into my schedule so I can protect my body and joints to maximize my workout in the best manner. After all, I am all about no sweat and who doesn't have 10 minutes to workout? Quality over quantity wins every time! ** copy received for review consideration

This is a must read for everyone. I know I will have to read and re-read this and I look forward to the videos once they are available. Biologic Revelation will revolutionize your whole thought pattern when it comes to physical fitness. Wayne Caparas thank you for your research and personal knowledge that is found within. Well done!

"The 10 Minute No-Sweat Anti-Aging Workout" certainly sounds enticing which makes reading & trying "Biologic Revelation" an easy decision. Thanks to Wayne Caparas' explanations & research, this book makes a lot of sense. The information is easy to follow and provides results. Wayne's discoveries reveal a link between specific muscle fiber activity over a very short-duration that has the ability to improve metabolic health, fight disease, and slow the aging process. I would recommend this book for people of all ages and all fitness levels. It is a non-punishing effective workout plan, and, one that everyone should adopt, or at least incorporate in their fitness regimen.

Brilliant! Finally a voice of reason with the research and knowledge to back these facts!
