Customer Reviews

I wanted to learn some Buffett songs on my guitar, which I was picking up again for the first time in years. As my callouses rebuild, so does my skill level. So this has been a really great book to make that early phase fingertip pain more tolerable. Great fun!

A good beginner to intermediate song book. Tabs and chords are clear and easy to follow. Some of the songs definately are a little more advanced than others and beginning guitarists will struggle with them. The good part is that you can work your way up to the more difficult songs after learning the easier ones. I would recommend this song book for anyone, beginner or not, who wants to learn some of their favorite "parrothead" songs.

Very basic stuff. I've been playing for 2-3 years and I wanted something that was more along the lines of what Jimmy actually plays - strum patterns, etc. This is just okay and will get you going in the music. I was lucky that I had a teacher that could look at the music and make small changes so I played more like Jimmy.

Fins Up!

I have been playing guitar for many years, but have trouble now with being able to play by ear so it was great to have the sheet music in front of me to learn all of my favorite songs. I now can play along with him on my mp3 player. Yes I would buy this book again. Yes I would recommend it. I have been a loyal fan ever since his very first concert.

Good book, popular songs

as good as expected. very happy

Easy and all the favorites
