This book was 1 of 2 required for my Crisis Intervention class (HSM400), and all I can say is LOVE LOVE LOVE. Obviously it is not a typical school book, but I think that's why it was so good. There was a lot of cross over between this and the text book, but to my surprise, this had a lot more information - it was my go to for all my papers and contained information the text book did not. Also, it is well written and conversational, which makes it an easy read. I typically find my mind wonders after a bit when reading textbooks (no matter how intersecting the topic), but that was not the case with Fundementals of Crisis Counseling...One more thing- I never ever re-read assigned texts, but I plan to read this book again over my next break. BECAUSE I WANT TO. I'm looking forward to reading it front to back, without chapter skips or interuptions - this book is that dang good.

This book implies that it will give you the basics, and that is all you get. The chapters are short, but not in a good way, more in a "I feel like I only read the abstract. Where is the rest of the article?" kind of way. This book will not be very helpful in my Counseling career, or in a crisis. This is the WebMD version of crisis counseling; you'll have to consult someone/something else still.

This was great and very easy to maneuver while reading. The hardest part was not having actual page numbers to be able to quote or do page references. Or if there is a way to convert location to actual page number that would be great!

Great Quality
