Great book came in better than stated condition very pleased with product.

Not what I was expecting just a lore booklet.

A great book, one that I will use in the everyday BattleTech game. This sourcebook covers the camo designs and all the different stars, binaries, trinaries, and all standard galaxies for ultra-realistic play. Great for creating models. Topped off with detailed 'Mech designs to provide even more diversity for the Wolf Clan player. A great book, I recommend it to everyone.
