Customer Reviews

An almost impossible to get book, and seller, Worldbooksusa, had a good copy at a good price....I am leaving the review here and the recommend on the seller because my didn't list a seller feedback....Thank You Worldbooksusa

A good electronic edition for a classic text of philosophy.

Russell's An Inquiry into Meaning and Truth is a well-written book with extra in-depth details and careful examining. This book exposes reader to a wide array of topics, which most of the time found going together, which are epistemology, philosophy of language, logic, and a hint of metaphysics. So if the reader is not a philosophy student, s/he can still read this book to gain intermediate knowledge of philosophy of language, given that s/he has already been exposed to fundamental materials of the same topic. I am not a philosophy student, neither a native English speaker, I'm just a philosophy-geek - person who is fascinated with the study of philosophy and complex writing.

Full of typesetting errors - several on each page - which does an injustice to an otherwise wonderful book. It needs a thorough proof reading.
