Shipping Weight: 2.6 pounds (View shipping rates and policies)

Average Customer Review: 4.0 out of 5 stars 18 customer reviews

Best Sellers Rank: #180,500 in Books (See Top 100 in Books) #92 in [Books > Textbooks > Medicine & Health Sciences > Medicine > Basic Sciences > Pathology](#) #245 in [Books > Engineering & Transportation > Engineering > Bioengineering > Biochemistry](#) #278 in [Books > Textbooks > Medicine & Health Sciences > Medicine > Clinical > Pediatrics](#)

## Customer Reviews

Suzanne J Baron Yale University Medical Student New Haven, CT Christoph Lee Yale University Medical Student New Haven, CT

I have been flipping through them and I love them. Very useful and concise scenarios. Make the flow of diagnoses easy to remember. Only thing is that they're so tightly boxed I'm sometimes struggle to not bend them when tugging them out of the box.

These cards helped me get through second year as well as step 1. They are organized in a great way. The cards are a good thickness so you don't have to worry about them tearing or ink showing up on the other side.

I had assumed that this would be a collection of digital flash cards. It is not. It's a mishmash of flashcards as a continuous "book." It is not useful as a study tool, however the information is still good and the table of contents and index are useful, so it gets 2 stars instead of 1. Just buy the real cards.

Awesome

very poor.. i hated

sometimes gives away the answer but good review. would like it more if there were histo, CT, pics and if there were fewer diseases combined on one card.

Great for on the go review

good shipping, timing, and care of product - product as described
