Emma Garcia was born in Yorkshire, England and studied education and psychology at Liverpool University. She works as an early years advisor and her experience has given her a strong insight into what young children enjoy reading. Emma lives in London with her husband and two sons.

This colorful board book is easy to read and a fun way for your toddler to learn about the different construction vehicles and what they do. "With the Mixer we can Mix Mix Mix," is an example of the wording. The repetitive phrases are memorable, and kids love to say the words with you. At the end of the story, all of your hard work paid off, and you built an adventure playground!

We have her other book 'toot toot beep beep' and my toddler adores it. This one is just ok. The story makes less sense and, frankly, it's a bloody dump truck, not a 'tipper truck' seriously. Had I realised that she spends the whole book calling it a 'tipper' I would not have bought the book at all. My 3 year old just looks at me and says, eh, no, mum, it's a dump truck not a tipper.... I'm like, yes son, I know, I know. Downfalls of book buys on . 3 stars though because the illustrations are cute and except for that small bit of stupidity, my son loves the book.

Got this for my 4 year old son last year. His school library had this book but in a larger version. He loves looking through it and know how to read it already. Great book for pre-schoolers.

I had a larger copy of this book and my children love it. So glad I found a smaller copy for travel, and this one is more durable. We're happy.

Such a great book for toddlers! We have this and tap tap bang bang and my son will listen to both books as many times as we will read it.

Perfect for our construction curriculum. Simple and easy to read.

My 2 year old loved this book so much, he sobbed when we had to return it to the library. So I bought him his own copy. It's a great introduction to construction vehicles and the idea of building things. He's nearly 3 now and still asks for this one frequently.

Love the pictures but can't get over the fact that they call the dump truck a "tipper truck" -- we edited ours with a sharpie but wouldn't have purchased the book if we would have seen it in a book store first and noticed. The story is cute though so if that won't bother you, the book would be a good purchase.
